benjamin.carreon@hotmail.com · +52 448 112 89 49

Software Engineer graduated from UAQ with 2 years of experience developing ERP systems, desktop applications, APIs, and AI-powered chatbots. Strong expertise in React, Flask, Electron, Supabase, and Agile methodologies (Scrum/Kanban). Capable of leading teams and projects, gathering requirements, and building scalable, user-centered solutions.

REVELANT EXPERIENCE

PROJECT DEVELOPMENT
January 2023 - Present [Querétaro]

ACADEMIC AND PROFESSIONAL PROJECTS

Internal Enterprise ERP System – Technology Consulting Startup
Technologies: TypeScript, Tailwind, NestJS, Docker, MinIO, Vault, MongoDB, Postman
Role: Junior Full Stack Developer (Professional Internship) | Duration: August 2025 – October 2025

- Designed and implemented an internal ERP for client, employee, content, blog, and recruitment management.
- Implemented JWT authentication and role-based access control (Admin, Employee, Editor).
- Developed CMS modules with a drag & drop editor and automated notification system.
- Acted as lead developer, defining UX/UI decisions with daily feedback cycles.
- Performed REST API functional testing (CRUD, error handling, authentication) using Postman.

ERP System for a Private Security Company
Technologies: JavaScript, HTML, CSS, Electron, Supabase
Role: Full Stack Developer & Scrum Master | October 2024 – March 2025

- Developed an ERP system for inventory management, project tracking, and automated reports.
- Conducted requirements gathering and maintained direct communication with the client.
- Implemented incremental deliveries following Scrum methodology.

Intelligent Chatbot for Medication Queries (Healthcare Sector)
Technologies: Python, TensorFlow, NLP, IMSS Database
Role: AI Developer | Duration: July 2023 – October 2023

- Developed a chatbot using TensorFlow and Natural Language Processing to answer medical queries about medications.
- Integrated the IMSS database to provide detailed information (dosage, contraindications, clinical use).
- Implemented real-time natural language understanding and contextual responses.
- Significantly improved consultation efficiency by reducing information search time.

ADDITIONAL EXPERIENCE (Leadership & Mentoring)

TRAINING LEAD & UNIVERSITY MENTOR

January 2022 - December 2024 [Querétaro, Juriquilla] [Universidad Autónoma de Querétaro, UAQ]

- Led and trained a competitive university team, improving performance at regional and national levels.
- Designed training plans focused on decision-making, strategic analysis, and teamwork.
- Mentored new members, reducing onboarding time through personalized coaching.
- Coordinated tournament logistics (schedules, rules, participation), optimizing team operations.

TECHNICAL STACK

TypeScript, JavaScript, Python, SQL · React, Tailwind · NestJS, Flask · MongoDB, Supabase · Electron · TensorFlow (NLP) · Docker · Git/GitHub · Postman · Figma · Notion, Slack

SOFT SKILLS

Analytical Thinking · Problem Solving · Teamwork · Effective Communication · Self-Learner

EDUCATION

Universidad Autónoma de Querétaro (UAQ) — B.S. in Software Engineering (2021–2025) · Graduate

CERTIFICATIONS

AWS Cloud Foundations (2024) · Data Visualization with Python (2024) · Data Engineering with Python and PySpark (In Progress) · Prompt Engineering (In Progress)

LENGUAGES

Spanish (Native) · English (B2) · German (A1)
